Semester: VII
Academic Year: 2026-27
Class / Branch: BE IT-B
Subject: Recent Open Source Lab
Name of Instructor: Prof. Jayshree Jha

Name of Student: Sonika Sawant
Student ID: 23104054

EXPERIMENT NO. 03

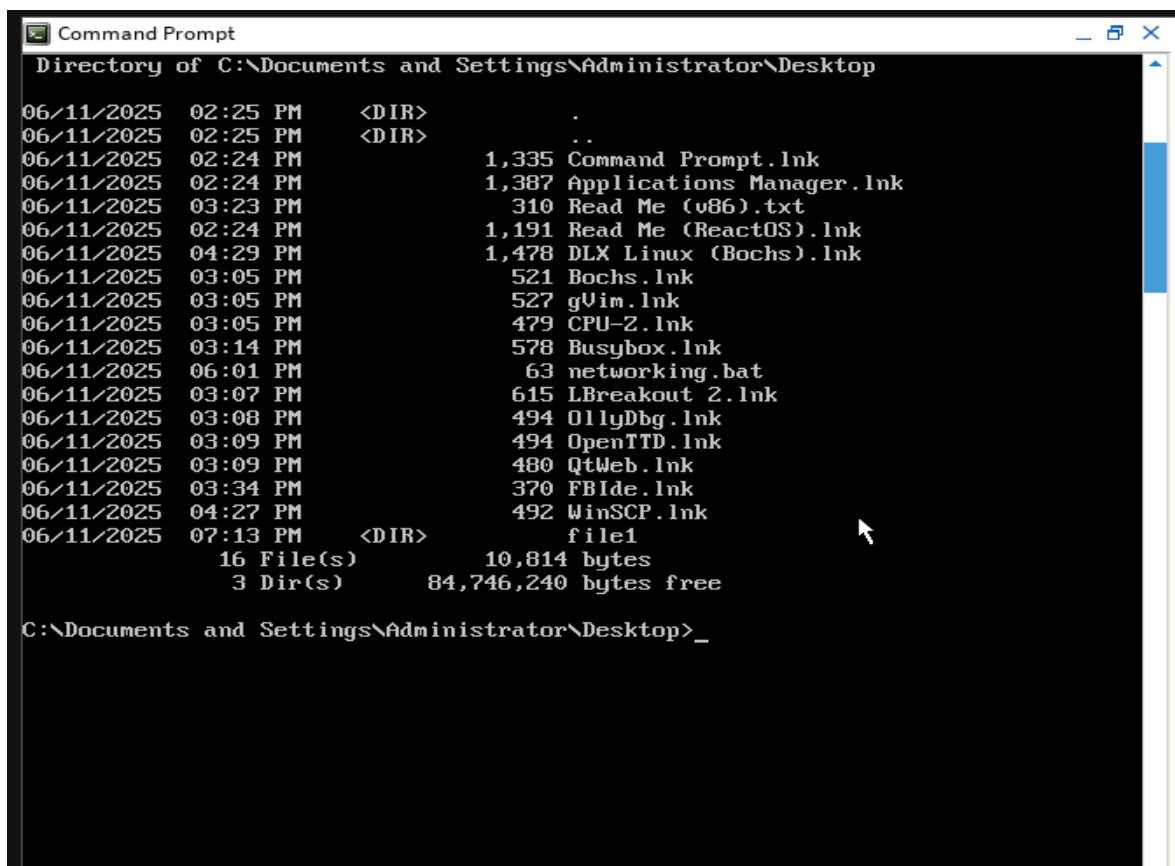

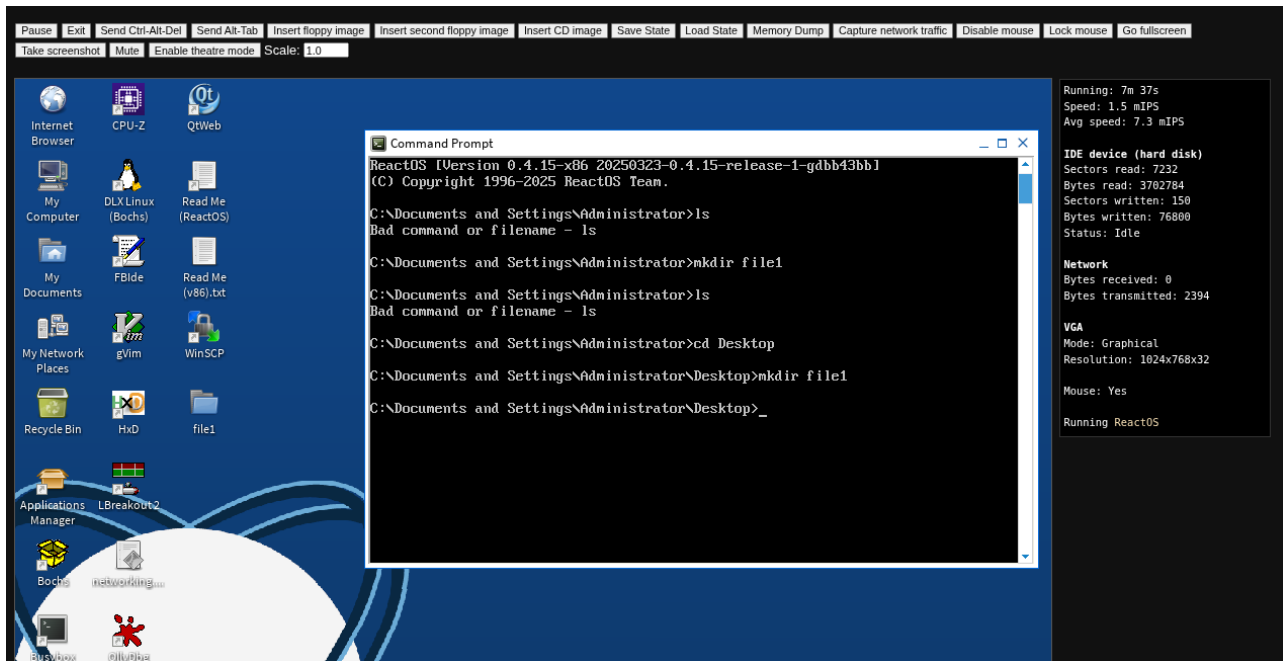

Aim: To explore various open-source operating systems like ReactOS, ChromeOS, includeOS and understand steps for contributing in ReactOS.

Steps to Contribute in ReactOS :

React to OS dark/light mode changes at runtime #54

New issue

Open

Frozzie89 opened on Jun 12

Owner

What problem does this solve?
When a user switches their OS appearance between light and dark mode while the app is open, the app theme does not update until the page is reloaded. The initial `prefers-color-scheme` value is read at startup only.

Proposed solution
In `ui.ts` (the theme Pinia store), add a `MediaQueryList` listener for `prefers-color-scheme` changes. The listener should only apply the OS preference when no explicit user preference has been saved to `localStorage` - explicit user choice always takes priority.

Additional context

- File to modify: `frontend/src/shared/stores/ui.ts`
